

STATEMENT OF PURPOSE

RS21193C1

The Idaho Hazardous Waste Act ("Act") requires that commercial hazardous waste facilities charge a fee for every ton of waste treated or disposed of in such facilities.

This legislation amends the Act to provide that 5% of the fees (phased in over three years) be remitted to the local highway district and an additional 5% of the fees (phased in over three years) be remitted to the State Highway Account for the maintenance, construction, and repair of the roads connecting a hazardous waste rail transfer facility with a hazardous waste facility.

FISCAL NOTE

In 2011, the fees collected pursuant to the Act were approximately \$2.4 million. This legislation would result in an estimated net reduction in the General Fund of \$48,000 in fiscal year 2013, an estimated net reduction in the General Fund of \$96,000 in fiscal year 2014, and an estimated net reduction in the General Fund of \$240,000 in fiscal year 2015 and each year thereafter.
